Info: geometry GA = TCG (Triple Chip Grind) | - ASK ABOUT PRICE!

LONG LIFE
- the use of SUPER HARD NANOGRAN carbide with a hardness guarantees satisfaction with cutting results between saw sharpenings.

PERFECTLY BALANCED
- our tools do not cause nicks while cutting. This is possible thanks to the high-precision balanced disk and reduced tolerances during the manufacturing process.

DEDICATED SOLUTIONS
- the individually designed teeth geometry allows for optimum tool selection for a particular cutting operation of different material and obtaining the best possible edge after woodworking.
